

DMPK has changed to Electrical Submission starting April 1, 2006 !!

DMPK has changed the manuscript submission to Electrical Submission, Starting April 1, 2006. We have chosen the system, Manuscript Central (MC) of ScholarOne. You may be familiar with the system, since many other societies have adopted it. You will be asked to submit your manuscript through this system.

We accept the conventional postal way to submit your manuscript, as well as the new Electrical Submission, but will eventually be eliminating the former.

How to submit by Electrical Submission

1. Click DMPK in JSSX homepage (<http://www.issx.org>).

Then, click: Submission to Drug Metabolism and Pharmacokinetics
<http://mc.manuscriptcentral.com/dmpk> and the MC welcome page will open.

2. If you do not have an account, please click the Create Account, and obtain one.

3. When submitting the manuscript, click the Author Center.

Before Submitting:

Please read the Instructions to Authors in Instructions and Forms under Resources, or in the JSSX homepage.

To submit smoothly, see the User Tutorial in the MC welcome page.

If you have trouble submitting, please contact (dmpk-mcsupport@kyorin.co.jp) regarding system trouble.

Please also see the Get Help Now when you have problems.

Contact dmpk-ed@imic.or.jp for other questions.

If you would like to call the editorial office, the hours are 10-16 Mon-Fri.

If you would like to send the conventional postal submission, please contact the following address.

DMPK Editorial Office
